

*I found my answer at BLK...*

I would like to express my sincere appreciation to the hospital and the staff. As a patient you can feel vulnerable, and must rely on the contact of the nurses and support staff for consistent treatment of your medical issues and emotions as they occur.

In addition, I was very impressed with the dignity and motherly care by Ms. Nisha Abraham and Anuradha Thakur & Above all Ms. Deelisha Nangra for her constant support & guidance.

Keep going the same way!
