Subject: MESSAGE OF APPRECIATION FROM AFAR!

Dear Sir,

Two weeks ago my spouse Anetha and I were discharged from your BLK Super Speciality Hospital after spending four weeks of treatment. Both of us are doing well at our home city of Dar-Es-Salaam, Tanzania. We wish to take this opportunity to express our sincere appreciation for the excellent treatment we were given throughout our stay. Your medical team of doctors, nurses, attendants and others distinguished themselves by the cordial manner in which they discharged their responsibilities to us. We give them a big THANK YOU for the great passion they have to help and heal people from all corners of the world. We also wish to thank the intefatigable Mr. Akhil who was our liaison man from beginning to end. Like your team of doctors he has impressed us as a very committed friendly personality and his ability to interact with people and constant caring spirit towards foreign patients is a huge gift and asset to your establishment.

May God continue to bless him and usher him to greater heights of success. We believe that all these achievements have been possible because of your distinguished leadership of your team. We therefore **THANK YOU VERY MUCH FOR ALL THAT YOU ARE DOING FOR THE WELLBEING OF HUMANITY.** God Bless You Always.

Regards from
Francis Mark Chengula
