

I found my answer at BLK...

For a long time I suffered this gynecometria problem. But in the month of Feb. 2015 I found a name in the net who could cure this. That was Dr. Lokesh.

In April 2015

I met with him, he was humble (He is still humble)
☺ He advised me to perform/get ready for a surgery. ~~After~~ My surgery was good. Results are good.
All the hospital staff of B.L.K. was also co-operative.

Thank you Dr. Lokesh.

Kapil.
