

## I found my answer at BLK

I am Dr. Mandir, Scientist, IARI. I got diagnosed in January, 2015 and got treated here. I just want to convey that being educated is not enough. We do not have awareness in India not only in the less educated people but also in highly educated people. Therefore, awareness is the foremost thing we should do. But a great thanks to medical science, doctors and all who supported. Being diagnosed at 3rd stage also, got good treatment and now I am fine.

Name: Dr. Mandir Berman

Address: IARI, New Delhi
