

## I found my answer at BLK

The staff at BLK <sup>BMT</sup> were most helpful & kind. They know what they are doing and when I was in a difficult situation or going through a tough time, they exhibited tenderness and sensitivity.

I'd like to experience my thanks to the nurses, doctors, attendants, ~~the~~ support team at the International office and Akhild Dubey & his team.

It would be nice to have an introductory welcome to the unit, with guidelines on how to conduct one-self within the unit.

Once again thank you for seeing me through this period.
