

## I found my answer at BLK

My name is Kailash Devi. I started experiencing Pain in my abdomen about a week back on Monday, I was taken to the BLK emergency on Wednesday evening. All tests were done promptly & with great care. Surgery was planned & done by Dr. Bhalla. ~~He has~~ The surgery went well & the recovery has also been great. All staff, nurses, paramedical staff treated me with respect & provided excellent service at the drop of a hat. Dr. Bhalla himself came to visit me twice a day & made me feel reassured. All in all it was a great experience & I would recommend the hospital for anyone who wishes to avail their fine services.
