

I found my answer at BLK

My name is Unga Paalate, I am a Tuluwan Citizenship. I am a patient been admitted to BLK Hospital, 28/4/2017 in India. I was diagnosed with Spondylitis arthrosis, and Rheumatoid Arthritis. This sickness was being with me for ~~about~~ more than five years. In 2015 I was using Crutches because I'm not able to walk by myself, and then 2016 I was using Wheel Chair and therefore I am relying on others for my daily needs. I read a news letter sent to me by Dr Souson Fereaga about BLK and that was where I know BLK as well as Dr Anirudh Sharma. There was one case in the BLK News Letter about the lady from Bisi which have the same case as I and was well treated in this hospital where surgery conducted by Dr Sharma. Tuluwan has a medical scheme with India where they sent me to India to fix my both knees and I was undergo a bilateral knee replacement by Dr Sharma. I thank very much to Dr Sharma for his confidence in treating my knees, and also to my government for financing my medical treatment.

Name: Mr. Unga Paalate

Address: Tuluwan
